The Emergency Door

The emergency door is the door at the rear of the school bus. It is only used if there is an emergency. An emergency is something that can't wait that may cause someone to get hurt or even killed. An example of an emergency would be if the school bus was on fire. A fire on the school bus is something that can't wait. Students can exit the school bus using the emergency doors if the bus is on fire.

Another example of an emergency that makes it okay to use the emergency doors is if the school bus was in a serious accident. If you must use the emergency door to get away from the bus, try to remember to stay calm and move quickly and orderly as possible.

As indicated above it is very important to follow all safety rules while waiting to board a school bus. It is equally important to remember the proper behavior for boarding and riding a school bus as well as getting off the bus and crossing the street. Remembering these safety rules will help you have a safe and fun trip to school and home on the school bus!
